			TOTAL	_____	_____

Stocking Guide

The number of fish a pond can support depends on many factors including water temperature, available food, flow of water through the pond, depth and surface area. Surface area is the best factor to use as an estimate.

<u>Surface Area of Pond</u>	<u>Number of Fish 5 - 6" and Larger</u>
1/4 acre	50
1/2 acre	100
3/4 acre	125-150
1 acre	150-25
